Assets Panel	<F11>
CSS Styles Panel	<Shift> + <F11>
Preview in Primary Browser	<F12>
Preview in Secondary Browser	<Ctrl> + <F12>

Insert Toolbar

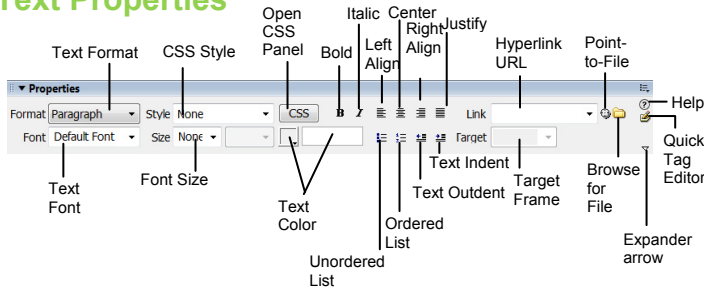

- Common:** includes objects commonly inserted in a Web page (ex. tables, images)
- Layout:** insert layout tables and frames on the page
- Forms:** insert elements often found in a Web form (ex. text fields, option buttons, check boxes)
- Data:** insert Spry data objects and other dynamic items like update forms.
- Spry:** includes Spry objects and widgets for making Spry pages.
- Text:** apply formatting to text (ex. bold, italic, list item)
- Favorites:** allows you to group the buttons you use most often.

Property Inspector

General Commands

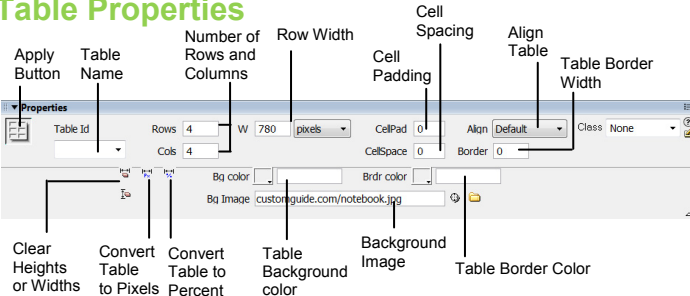

- Select an item to view its properties.
- **To Get Help:** Click the **Help** button for more information on options.
- **Format Text in HTML Code:** Click the **Quick Tag Editor** button to apply an HTML tag to selected text or object.
- **To Expand/Contract the Property Inspector:** Click the **Expander arrow** in the lower right corner to view or hide all the options in the Property Inspector.

Text Properties

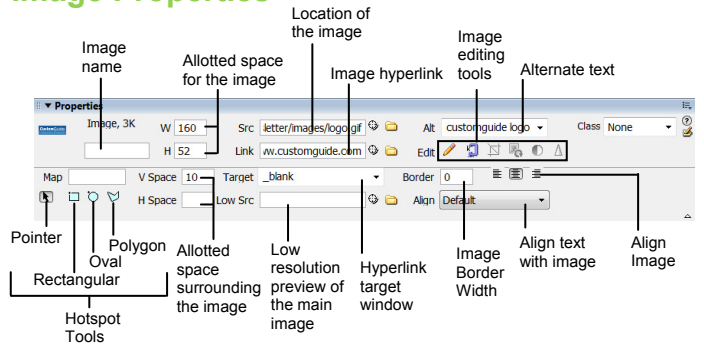

- **To Format Text:** Select the text and apply formatting from the Property Inspector.
- **To Create a Hyperlink:** Select the text and type the URL in the Link textbox; or drag the **Point-to-File** icon to the file in the Site panel; or click the **Folder** icon to browse for a file in the Web site.
- **Specify Link Target Frame:** Specify in which frame the hyperlink should appear.

Table Properties

- **To View Table Properties:** Click a table border.
- **To Add or Delete Rows or Columns:** Type the number of rows or columns you want to add or delete in the Rows and Cols text boxes.
- **To Change Table Width:** Type a number in the W text box.
- **To Display the Table in Pixels or Percent:** Click the **pixels** or **percent** button arrow and select the display option.
- **To Add Cell Padding or Cell Spacing:** Enter the amount in the CellPad or CellSpace text boxes.
- **To Add a Background Color:** Click the **Bg Color** list arrow and select a color from the palette.
- **To Add a Border Color:** Click the **Brdr Color** list arrow and select a color from the palette.
- **To Add a Background Image:** Type the location in the Bg text box, or drag the **Point-to-File** icon to the file in the Site panel; or click the **Folder** icon to browse for a file.
- **To Add a Table Border:** Enter the width in the Border text box.

Image Properties

- **To Add a Hyperlink to an Image:** Select the text and type the URL in the Link textbox; or drag the **Point-to-File** icon to the file in the Site panel; or click the **Folder** icon to browse for a file in the Web site.
- **To Create an Image Map:** Select the **Rectangular**, **Oval**, or **Polygon** command, draw a shape and set the link location.
- **To Edit an Image:** Use the image editing buttons.
- **To Align an Image:** Click the **Align** button arrow and align the image relative to text nearby; or click the **Left**, **Center** or **Right Align** button in the Inspector.
- **To Insert an Image:** Press **<Ctrl> + <Alt> + <I>**, or select **Insert** → **Image** from the menu.

Panels

- **To View or Hide a Panel:** Select **Window** from the menu bar and select the panel you want to view or hide. Or, click the panel group and select the panel tab you want to view.
- **To View or Hide Panel Groups:** Click the **Panel group Expander arrow** between the document window and the panel groups.
- There are four panel groups available in Dreamweaver:

CSS

- **CSS Styles:** Apply CSS styles to the current selection
- **AP Elements:** Manage the AP (absolutely positioned) elements in your document

Application

- **Databases:** Create and inspect database connections, insert database code
- **Bindings:** Locate and insert dynamic content
- **Server Behaviors:** Create, insert and edit server behaviors into the page
- **Components:** Create, inspect, and insert components or component code

Tag Inspector

- **Attributes:** Edit or add attributes and their values
- **Behaviors:** Attach or modify behaviors to page elements such as tags

Files

- **File:** Track local and remote files, and upload files on the Web
- **Assets:** View and insert site assets such as images, HTML colors, links, Flash movies, scripts, templates, and library items
- **Snippets:** Create, delete, edit, or insert code snippets in the document
